QA Audit Report - September 2026

Scope: Blue Sherbet line, batches MB-2635-A to MB-2639-B.

Result: 41 batches tested, 3 quarantined. Two failed colourimeter (b* above -18) after an oven drifted to 169C on Line A. One failed the fizz test because the crystal store hygrometer read 52% RH.

Corrective actions: Oven thermocouple replaced 14 Sep. Hygrometer alarm set at 45% RH. Operators retrained on the 40-second maximum fold time for sherbet crystals.

Allergen: ATP swab at Green Moon (pistachio) changeover passed on all 9 changeovers. No Level 3 incidents.
